

4-H — A Great Opportunity for Youth!

▶ “4-H Afterschool is designed to further increase staff capacity to develop and implement effective programs and to work in partnership with other youth-serving organizations. These efforts will ultimately increase the quality and quantity of afterschool programs in America’s communities” (Ferrari et al., 2003 Draft, 4-H Afterschool pg. 5).

Strengthening America's After-School Programs

4-H Afterschool increases young people's opportunities to have fun while developing lifelong skills through experiential learning in safe, healthy, enriching environments.

Offering "learn-by-doing" curricula that cover an impressive array of topics—from leadership development and citizenship skills to aerospace and computers—4-H Afterschool is a vital source of ready-to-use programming for youth. These proven, research-based curricula set 4-H Afterschool Programs apart and can help young people achieve social, emotional, physical and academic success.

4-H Can Enhance your Existing Program!!!

- 4-H has hands-on, learn by doing curriculum in a variety of topics
- 4-H clubs can be established at after-school sites
- USU Extension is available to train staff in working with youth
- 4-H includes leadership and service components
- Youth can participate in all 4-H events, camps, and service activities

A site coordinator at Wilson Elementary said, "The best part about incorporating 4-H into after-school is the club meeting. It brings structure to our afterschool club and allows us to make announcements; transitions are eliminated."

4-H is:
